

Layered Bobs? Yes or Hot Mess?

Short, sassy crops are all the rage in Hollywood, but not every snip is a cut above the rest

TAPERED

"The weight of **Padma Lakshmi's** long hair made it feel heavy at times – she wanted a transformation, something shorter and a bit punk," says Jutta Weiss, hairstylist at John Sahag Workshop in New York, who cut the *Top Chef* host's locks. "I left the layers long to add volume to her face. The cut also emphasizes lift and movement, which lend beautifully to her features and bone structure." For a similar cut: Ask for a collarbone-sweeping lob with side fringe and choppy layers throughout.

BLUNT

"I love having it short because I can just roll out of bed, put some sea salt spray in it and be out the door," **Emma Roberts** has said of her new 'do. "It may be ready to wear, but since her hair is now the same length as her chin, the linear style pulls focus down to a harsh jawline," says hairstylist Daniel Koye, who's worked with Jessica Chastain and Heidi Klum. His fix? Add in wavy texture by wrapping 1-inch sections of hair around a 1-inch curling iron. "The softness counteracts any angles."

SHAGGY

Kingsman: The Golden Circle star **Poppy Delevingne's** ultra-long straight locks dragged the eye down, making features appear droopy. "Bringing hair up to the chin with wispy layers gives finer strands a boost while causing eyes and cheekbones to look more youthful and lifted," says Koye. "Plus, it's a low-maintenance chop – just scrunch with some mousse and go!" For a similar cut: Ask your stylist for a chin-length shag with feathery, graduating layers.
